

please do not allow the LPFM stations to take priority over current FM translator services. We could lose our K-LOVE station which would be a HUGE tragedy. There is no other contemporary Christian station in our area. K-LOVE is a station that is always safe for my kids to listen to, no commercials and always has an encouraging message. With all the negative publicity, immoral messages in secular music and filth-talk by other DJ's, K-LOVE is unique and so necessary for the emotional, social, physical and spiritual well-being of society.
